

Asia e University (AeU) Overview

Asia e University (AeU) is a flexible, international university set in Asia, by Asians for Asia under the [Asia Cooperation Dialogue \(ACD\)](#). Its establishment is an initiative of Malaysia, as the prime mover for e-education, with the support of [33 ACD Member Countries](#) as confirmed at the Islamabad 2005 and Doha 2006 ACD Ministerial Meetings.

AeU collaborates with global educational institutions to offer quality, affordable and marketable programmes through e-learning. Our cross-border and cross-culture programmes have attracted high numbers of postgraduates from around the world.

Focused on personalised learning on demand, AeU provides education for working professionals in search of flexibility, innovation and creativity in their education needs.

About School of Technical & Engineering Education and Reskilling (STEER)

School of Technical and Engineering Education (STEER) believes strongly in partnerships and have built and maintained effective working relationships with numerous major organisations of high international reputation, with the aim of bringing value to our customers. Vocational education works best when it meets the needs of employers and the economy.

STEER offers vocational, engineering and technical courses to meet the needs of technical sub-professionals in developing Asian economies. The courses are offered at various level, namely Executive Masters, Executive Bachelors, and Executive Diplomas as well as Certificates level.

At STEER, we believe in the uniqueness and innovative ways of teaching and learning. Therefore, we work together with our partners internationally and locally to develop quality training courses which are responsive to your interests and needs. All our courses are designed using the best theoretical, practical and training applications in the selected field. It is also equipped with all the required facilities, laboratories and necessary equipments, designed around specific training needs.
